SUBJECT INDEX **ON-LINE SYSTEMS**

NONLINEAR SYSTEMS

Nonlinear modeling and dynamic feedback control of the flexible remote manipulator system

p 197 A92-29258

NORADRENALINE

Hyponoradrenergic syndrome of weightlessness - Its manifestations in mammals and possible mechanism p 257 A92-39131

NOREPINEPHRINE

Hemodynamic and hormonal effects of prolonged anti-G p 188 A92-29994 suit inflation in humans Non-invasive evaluation of the cardiac autonomic

ervous system by PET [DE91-018476] p 7 N92-11622

Physiological analyses of the afferents controlling brain neurochemical systems

p 359 N92-29930 IAD-A2483341

NOZZLE EFFICIENCY

Fundamental experiments of shower development for p 445 N92-33758 space use

NOZZLE FLOW

Fundamental experiments of shower development for p 445 N92-33758

NUCLEAR EXPLOSIONS

Effect of textile test sample size on assessment of protection to skin from thermal radiation p 316 N92-26472 [AD-A246535]

NUCLEAR MAGNETIC RESONANCE

MR imaging of hand microcirculation as a potential tool

for space glove testing and design [SAE PAPER 911382] p 188 A92-31307 Proton NMR studies on human blood plasma: An application to cancer research

pplication to cancer research p 5 N92-10545 In-vivo proton magnetic resonance spectroscopy: Evaluation of multiple quantum techniques for spectral editing and a time domain fitting procedure for quantification

ETN-92-91283]

p 275 N92-25304 NUCLEAR MEDICINE

JPRS report: Science and technology. USSR: Life p 2 N92-11611 [JPRS-ULS-91-012] Nuclear Medicine Program

[DE92-000383] p 38 N92-12411

New imaging systems in nuclear medicine [DE92-000786] p 81 p 81 N92-15534 Radiopharmaceuticals for diagnosis and treatment

p 167 N92-18102 [DE92-004065] Beneficial uses of radiation

[DE92-003024] p 168 N92-18799 JPRS report: Science and technology. Central Eurasia:

Life sciences [JPRS-ULS-92-005] p 221 N92-22288

JPRS report: Science and technology. Central Eurasia: Life sciences

[JPRS-ULS-92-002] p 221 N92-22308 Nuclear medicine program

[DE92-0069791 p 223 N92-23518 JPRS report: Science and technology. Central Eurasia:

[JPRS-ULS-92-010] p 226 N92-23706 Medical applications of synchrotron radiation

p 275 N92-25045 Absolute calibration of in vivo measurement systems using magnetic resonance imaging and Monte Carlo computations

[DE92-005253] p 275 N92-25046 Life sciences and environmental sciences p 296 N92-26203

[DE92-010254] **NUCLEAR POWER PLANTS**

Phylogenetic relationships among subsurface microorganisms [DE92-004421]

p 159 N92-18113 Computer-based diagnostic monitoring to enhance the

human-machine interface of complex processes p 291 N92-26025 [DE92-011545] Reviewing the impact of advanced control room

technology [DE92-018032] p 446 N92-33987

NUCLEAR RADIATION

Life sciences and environmental sciences [DE92-010254] p 296 N92-26203

NUCLEAR REACTOR CONTROL

Reviewing the impact of advanced control room technology [DE92-018032] p 446 N92-33987

NUCLEAR REACTORS

A strategy for minimizing common mode human error

in executing critical functions and tasks p 355 N92-28775 [DE92-011839] Reviewing the impact of advanced control room technology

(DF92-0180321 p 446 N92-33987

NUCLEAR RESEARCH

Beneficial uses of radiation [DE92-003024]

p 168 N92-18799

NUCLEAR SCATTERING

Biological effectiveness of high-energy protons - Target p 218 A92-33920 fragmentation

NUCLEAR WARFARE

High altitude high acceleration and NBC warfare protective system for advanced fighter aircraft: Design p 181 N92-19000 considerations NUCLEATION

Bubble nucleation threshold in decomplemented p 160 N92-18974 **NÚCLEIC ACIDS**

The origin and early evolution of nucleic acid p 104 A92-20959 polymerases Some indices of protein and nucleic acid metabolism in the lymphoid organs of rats subjected to hypokinesia and to vitamin-B1 deficiency p 155 A92-25265 p 155 A92-25265

Nuclease activity of microorganisms and the problem of monitoring the state of automicroflora in operators in p 164 A92-26015 hermetically sealed environments

The effect of the different gravity on the muscle composition in Japanese quail p 261 A92-39169 Abiotic synthesis of amino acids and nucleic acid bases simulating an action of cosmic radiation

p 413 A92-53743 Nucleic acid probes in diagnostic medicine p 233 N92-22699

NUCLEOPHILES

Nucleotides as nucleophiles - Reactions of nucleotides with phosphoimidazolide activated guanosine p 324 A92-44651

NUCLEOSIDES

Changes of serum cortisol, insulin, glucagon, thyroxines and cyclic nucleotides pre- and post-flight in pilots

p 335 A92-45946 Template polymerization of nucleotide analogues p 58 N92-13617

NUCLEOTIDES

The information content of some hormonal indices and cyclic nucleotides in the estimation and prediction of resistance to the effect of acute hypoxia in operators

p 163 A92-25266 Nucleotides as nucleophiles - Reactions of nucleotides with phosphoimidazolide activated guanosine

p 324 A92-44651 Template polymerization of nucleotide analogues

p 58 N92-13617 Kinetics of the template-directed oligomerization of

quanosine 5'-phosphate-2-methylimidazolide: Effect of temperature on individual steps of reactionion p 66 N92-13667

NULL ZONES

Core temperature 'null zone' --- between threshold for shivering thermogenesis and sweating in humans p 3 A92-10351

NUMERICAL DATA BASES

The effects of unique encoding on the recall of numeric information p 351 A92-45067

NUTATION

Gravity perception and circumnutation in plants

p 218 A92-34195 **NUTRIENTS** CELSS nutrition system utilizing snails

p 87 A92-18566 [IAF PAPER 91-576] On-line monitoring of water quality and plant nutrients space applications based on photodiode array

spectrometry [SAE PAPER 911361] p 136 A92-21777 Conceptual design of snail breeder aboard space

[SAE PAPER 911430] p 140 A92-21834 lodine microbial control of hydroponic nutrient solution p 208 A92-31385 [SAE PAPER 911490]

Nutritional questions relevant to space flight p 267 A92-38130

Control of water and nutrients using a porous tube - A method for growing plants in space p 281 A92-38133

The role of nutrition in the prevention of +G-induced loss of consciousness p 120 A92-23854

Effect of chemical form of selenium on tissue glutathione peroxidase activity in developing rats

p 255 A92-38113 Study of the increase of work capacity at high altitude

p 302 A92-43024 with high energy mixture Facts about food irradiation: Nutritional quality of irradiated foods

[DE92-613576] p 214 N92-21557

NUTRITIONAL REQUIREMENTS

CELSS nutrition system utilizing snails

p 87 A92-18566 [IAF PAPER 91-576] Nutrition in space - Evidence from the U.S. and the p 281 A92-38138 Nutritional Requirements for Space Station Freedom

[NASA-CP-3146] p 291 N92-25961

Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212

NYSTAGMUS

Uvula-nodulus and gravity direction - A study on vertical ptokinetic-oculomotor functions p 388 A92-50155 optokinetic-oculomotor functions Positional and spontaneous nystagmus (8-IML-1)

p 234 N92-23624

Video Oculographic: Registration of eye movements in three degrees of freedom for research and medical diagnosis of the equilibrium system [ETN-92-92128] p 432 N92-33650

0

OBSERVABILITY (SYSTEMS)

A low sensitivity observer for complex biotechnological p 331 N92-29757 Analytical tuning of a low sensitivity observer applied to a continuous ethanol fermentation with product p 332 N92-29758

OBSTACLE AVOIDANCE

Simulating obstacle avoidance cues for low-level flight p 45 A92-13843

OCCLUSION

Object discrimination based on depth-from-occlusion [AD-A248104] p 358 N92-29560 p 358 N92-29560

OCCUPATIONAL DISEASES

Radiation exposure of civil air carrier crewmembers [NLRGC/B-1-4/91] p 432 N92-33908 p 432 N92-33908 OCEAN BOTTOM

The carbon isotope biogeochemistry of acetate from a methanogenic marine sediment p 220 A92-36316 Fine structure of the late Eocene Ir anomaly in marine p 62 N92-13644 Bacterial responses to extreme temperatures and

pressures and to heavy organic loading p 418 N92-32571 AD-A2474561

OCEAN MODELS Biogeochemical modeling at mass

extinction p 63 N92-13648 OCEANOGRAPHIC PARAMETERS

Bioluminescence in the western Alboran Sea in April 1991

[AD-A250016] p 329 N92-29089 OCEANOGRAPHY

Abstracts of manuscripts submitted in 1990 for publication

PB91-2183471 p 120 N92-16547

OCEANS

Bioluminescence in the western Alboran Sea in April 1991 p 329 N92-29089 [AD-A250016]

OCULAR CIRCULATION

Possibility to change otolithic-ocular static asymmetry by galvanic stimulation of vestibular apparatus

p 272 A92-39207

OCULOGRAVIC ILI LISIONS

The use of a tactile device to measure an illusion

p 367 A92-48537

OCUL OMETERS Dynamic analysis of ocular torsion in parabolic flight sing video-oculography

p 77 A92-18550 [IAF PAPER 91-553] Video Oculographic: Registration of eve movements in three degrees of freedom for research and medical diagnosis of the equilibrium system

[ETN-92-92128]

OCULOMOTOR NERVES Effects of teleoperator-system displays on human

oculomotor systems [SAE PAPER 911391] p 116 A92-21819 Multimodal interactions in sensory-motor processing

[AD-A242511] OFFICE AUTOMATION

Mental workload: Research on computer-aided design work and on the implementation of office automation [REPT-130/1991/TPS] p 238 N92-22670

OLFACTORY PERCEPTION

An evaluative study of the sensory qualities of selected European and Asian foods for international space missions (a French food study) p 321 N92-27009

OLIGOMERS

Kinetics of the template-directed oligomerization of guanosine 5'-phosphate-2-methylimidazolide: Effect of temperature on individual steps of reactionion

p 66 N92-13667

p 432 N92-33650

p 84 N92-15539

ON-LINE SYSTEMS

Computer-based diagnostic monitoring to enhance the human-machine interface of complex processes

[DE92-011545] p 291 N92-26025 The use of state estimators (observers) for on-line estimation of non-measurable process variables

p 331 N92-29755

Sequential application of data reconciliation for sensitive detection of systematic errors p 332 N92-29760 ONBOARD DATA PROCESSING SUBJECT INDEX

ONBOARD DATA PROCESSING	Multi-Attribute Task Battery - Applications in pilot	Design evolution of a telerobotic servicer through neutral
LH-embedded training - The First Team's approach	workload and strategic behavior research	buoyancy simulation
p 47 A92-14440	p 352 A92-45072	[AIAA PAPER 92-1016] p 240 A92-33202
ONBOARD EQUIPMENT	Strategic behaviour in flight workload management	Telerobotic capabilities for space operations
Human factor in manned Mars mission	p 352 A92-45074	p 406 A92-51732
p 129 A92-20864	Criterion Task Set (CTS) - Evaluation of cognitive task	Space architecture monograph series. Volume 4:
Evaluation of Night Vision Goggles (NVG) for maritime	batteries p 353 A92-45078	Genesis 2: Advanced lunar outpost
search and rescue	· · · · · · · · · · · · · · · · · · ·	[NASA-CR-190027] p 211 N92-20268

SUBJECT INDEX SHAPE MEMORY ALLOYS

SCIENTIFIC SATELLITES

A robot based concept for automation and servicing of scientific payloads aboard orbiting laboratories

p 286 A92-39540

A profile of scientist and engineer training conducted by the Naval Avionics Center

(AD-A245925) p 354 N92-28408

SCINTILLATION COUNTERS

History of the determination of radium in man since 1915

[DE92-000355] p 37 N92-12410 New imaging systems in nuclear medicine

p 81 N92-15534 Effect of increased axial field of view on the performance of a volume PET scanner

[DE92-004424] p 173 N92-19877

SEA URCHINS

Microgravity effects of sea urchin fertilization and development p 97 A92-20850

SEALERS

Glove attachment

[NASA-CASE-MSC-21632-1] p 447 N92-34210

SEARCHING Optimal symbol set selection - A semiautomated

p 193 A92-31471 procedure Display format, highlight validity, and highlight method: Their effects on search performance

[NASA-TM-104742] p 25 N92-10287

PILOTS: User's guide [PB92-100262] p 173 N92-19689

SEAS

Fine structure of the late Eocene Ir anomaly in marine sediments p 62 N92-13644 One thousand days non-stop at sea: Lessons for a

ission to Mars ITABES PAPER 92-4621 p 402 N92-32020

SEAT BELTS

Operational and human factor problems in the design of a crewmember negative G restraint

p 243 A92-35447

SEATS

Comparison of SOM-LA and ATB programs for prediction occupant motions in energy-absorbing seating p 47 A92-14433 Physiologic evaluation of the L1/M1 anti-G straining

maneuver [AD-A241293] p 39 N92-13570

Design guide for saddle seating on small high-speed

[ISVR-TR-205] p 317 N92-26891

Pivoting seat for fighter aircraft

p 323 N92-27372 Vertical impact tests of humans and anthropomorphic manikins

(AD-A245866) p 409 N92-31458

SECRETIONS

The characteristics of prolactin secretion in response to different degrees of vestibular-analyzer lesions p 165 A92-26017

The effect of exogenic heparin on the secretory activity of mast cells of rats subjected to immobilization stress

p 185 A92-30276 Salivary secretion and seasickness susceptibility

p 266 A92-37171 Involvement of lipid metabolism in chemical transmission

processes at mossy fiber synapses [AD-A247198] p 311 N92-27989

Waste streams in a typical crewed space habitat: An undate

[NASA-TM-103888] p 409 N92-31166 SECURITY

Toward advanced human reliability programs. Structural development considerations and options for extreme risk environments

[AD-A250786] p 436 N92-32660

SEDATIVES

Therapeutic effectiveness of medications taken during

[IAF PAPER 92-0265] p 425 A92-55703 Extended Ly Alpha emission around quasars at z of more p 429 A92-56703

SEDIMENTS

The carbon isotope biogeochemistry of acetate from a methanogenic marine sediment p 220 A92-36316 Diphytanyl glycerol ether distributions in sediments of the Orca Basin --- produced by archaebacteria

p 417 A92-56705 p 53 N92-13599 Paleolakes and life on early Mars Organic synthesis in the outer Solar System: Recent laboratory simulations for Titan, the Jovian planets, Triton p 55 N92-13608 Sedimentary organic molecules: Origins and information content p 60 N92-13634

Experimental measurement of the orbital paths of particles sedimenting within a rotating viscous fluid as influenced by gravity

[NASA-TP-3200] SEEDS

Tropistic responses of Avena seedlings in simulated hypogravity p 29 A92-14021 Automatic fixation facility for plant seedlings in the

TEXUS sounding rocket programme p 29 A92-14024 Transmission of gravistimulus in the statocyte of the p 225 N92-23617 lentil root (7-IML-1)

Seeds in space experiment --- long duration exposure p 298 N92-27120 facility

Space Exposed Experiment Developed for Students (SEEDS) (P0004-2) p 298 N92-27121 Survival of epiphytic bacteria from seed stored on the

Long Duration Exposure Facility (LDEF) p 298 N92-27122

Total Dose Effects (TDE) of heavy ionizing radiation in Preliminary fungus spores and plant seeds: p 299 investigations N92-27124 Final results of the Space Exposed Experiment Developed for Students (SEEDS) P-0004-2

p 299 N92-27322 Continued results of the seeds in space experiment p 299 N92-27323

Effects of extremely high G acceleration forces on NASA's control and space exposed tomato seeds [AD-A247488] p 329 N92-28247

SELECTION Optimal symbol set selection - A semiautomated procedure

p 193 A92-31471 SELECTIVITY Selective search for the target properties color and

[IZF-1991-B-13] p 308 N92-27047

SELENIUM COMPOUNDS

Radioprotection by metals - Selenium

p 102 A92-20904 Effect of chemical form of selenium on tissue glutathione

peroxidase activity in developing rats p 255 A92-38113

SEMICIRCULAR CANALS

Changes in monkey horizontal semicircular canal afferent responses after spaceflight p 379 A92-51487 SENSITIVITY

A low sensitivity observer for complex biotechnological p 331 N92-29757 processes

SENSORIMOTOR PERFORMANCE

Target size, location, sampling point and instructional set - More effects on touch panel operation p 20 A92-11155

Pathogenesis of sensory disorders in microgravity

p 269 A92-39135 FFT and amplitude spectrum evaluation of stabilograms on rats with respect to a consistent sensorimotor system

of orientation control (SOC) p 265 A92-39204 Orientation-reflex-based evaluation of postrotatory p 265 A92-39205 nvstaamograms

Sensory interaction and methods of non-medicinal prophylaxis of space motion sickness

p 273 A92-39210

Posture control of goldfish in microgravity p 413 A92-53735

Multimodal interactions in sensory-motor processing p 84 N92-15539 [AD-A2425111

Restriction of the field of vision: Influence on eye-head coordination during orientation towards an eccentric p 182 N92-19017

Acquisition and improvement of human motor skills: Learning through observation and practice

[NASA-TM-107878] p 357 N92-29174 Effects of ionizing radiation on auditory and visual

thresholds [AD-A2481991 n 329 N92-29410

SENSORS

ECLSS predictive monitoring p 146 N92-17357 Characterization of glucose microsensors small enough for intracellular measurements p 419 N92-33301

[AD-A252954]

SENSORY DEPRIVATION

Muscular strength gains and sensory perception changes: A comparison of electrical and combined electrical/magnetic stimulation

IAD-A252609 p 432 N92-33254

SENSORY FEEDBACK

Possible mechanisms of indirect gravity sensing by p 382 A92-52387 feedback for the

Sensory substitution of force human-machine interface in space teleoperation p 441 A92-55686 [IAF PAPER 92-0246]

Domestic problems and aviator family support

p 44 N92-13555

SENSORY PERCEPTION

Comparison of the effects of two antihistamines on cognitive performance, mood, and perceived p 9 A92-11160 performance

Pathogenesis of sensory disorders in microgravity A92-39135 p 269

Gravity sensing mechanisms in plant cells

p 383 A92-52389

Human Machine Interfaces for Teleoperators and Virtual **Environments Conference**

[NASA-CP-10071] p 26 N92-11638 Electronic expansion of human perception

p 128 N92-17634 FAD-A2420281 Contextual specificity in perception and action

p 196 N92-21479

Illusory self motion and simulator sickness p 196 N92-21481

Psychophysical analyses of perceptual representations [AD-A246945] p 357 N92-29186 Cortical mechanisms of attention, discrimination, and

motor response to somaesthetic stimuli [AD-A247228] p 400 N92-30613 Muscular strength gains and sensory perception changes: A comparison of electrical and combined

electrical/magnetic stimulation [AD-A252609] p 432 N92-33254

SENSORY STIMULATION

A 16-channel 8-parameter waveform electrotactile stimulation system p 23 A92-12306 Dynamic polarization vector of spatially tuned neurons - direction of maximum sensitivity of otolith neurons

p 107 A92-22262 Molecular mechanisms of chemosensory receptors, signal transducers, and the activation of gene expression

controlling establishment of a marine symbiosis AD-A242729] p 74 N92-15532

SEPARATION Phase partitioning experiment (8-IML-1)

p 226 N92-23621

SEPARATORS A 99 percent purity molecular sieve oxygen generator

p 249 N92-22483 A gas chromatographic separator for Columbus trace gas contamination monitoring assembly

p 289 N92-25864 Fan/pump/separator technology development for EVA p 321 N92-27006

SEQUENCING

Advanced recovery sequencer design, development, and qualification --- of recovery sequencer for ejection p 244 A92-35460

Paucity of moderately repetitive se auences p 2 N92-10276 [DE91-017953] Archaebacterial rhodopsin sequences: Implications for

evolution p 59 N92-13628 Analysis of simulated image sequences from sensors for restricted-visibility operations p 51 N92-13845

The cDNA expression map of the human genome: Methods development and applications using brain

[DE92-005520] p 275 N92-25422 Attentional demands and effects of extended practice in a one-finger key-pressing task

SOLAR TERRESTRIAL INTERACTIONS

'Mir' radiation dosimetry results during the solar proton events in September-October 1989 p 113 A92-20912 SOLID ELECTROLYTES

Study of oxygen generation system for space [SAE PAPER 911429] p 140 A92-21833 Development of a proton-exchange membrane electrochemical reclaimed water post-treatment system

SOLID PHASES

[SAE PAPER 911538]

Bone as a liquid-filled diphase porous medium

p 431 N92-32663

p 210 A92-31393

SOLID WASTES Flight test of an improved solid waste collection

(SAF PAPER 911367) p 136 A92-21782

SOLUBILITY

The solubility of the tetragonal form of hen egg white p 157 A92-25429 lysozyme from pH 4.0 to 5.4 SOLVENTS

Enzymatic catalysis in organic media - Fundamentals p 384 A92-52397 and selected applications

SONAR Lapses in alertness: Brain-evoked responses to

task-irrelevant auditory probes p 356 N92-28940 (AD-A247669)

SONIC BOOMS

Evaluation of human response to structural vibration p 437 N92-33886 induced by sonic boom

SORBENTS Functional description of the ion exchange and sorbent media used in the ECLSS water processor unibeds

p 203 A92-31342 [SAE PAPER 911551] Airborne trace organic contaminant removal using thermally regenerable multi-media layered sorbents [SAE PAPER 911540] p 210 A92-3 p 210 A92-31395

SORPTION

Effect of microgravity and mechanical stimulation on the in vitro mineralization and resorption of fetal mouse long p 222 N92-23066

SOUND FIELDS

Signal- and listener-based factors in complex auditory pattern perception

p 128 N92-17503 AD-42437161

SOUND INTENSITY

Acoustic localization under conditions of microgravity Preparation of the experiment and preliminary results
[IAF PAPER 92-0889] p 429 A92-57276 n 429 A92-57276

SOUND LOCALIZATION

Evaluation of a Directional Audio Display synthesizer p 17 A92-11128

The effects of perceived motion on sound-source p 427 A92-56466 lateralization

SOUND PRESSURE

The effect of impulse presentation order on hearing trauma in the chinchilla

p 109 N92-17269 [AD-A243174] Modeling the ear's response to intense impulses and

the development of improved damage risk criteria p 431 N92-32916 (AD-A2523651

SOUND TRANSDUCERS

Human factors engineering in sonar visual displays [AD-A241327] p 50 N92-13584

SOUND WAVES

Temporally-specific modification of myelinated axon excitability in vitro following a single ultrasound pulse [AD-A242329] p 109 N92-17474

Sound attenuation characteristics of the DH-133A

p 324 N92-27991 (AD-A2483511

SOUNDING ROCKETS

Automatic fixation facility for plant seedlings in the TEXUS sounding rocket programme p 29 A92-14024 Lymphocytes on sounding rockets p 96 A92-20846 Fertilization and development of eggs of the South African clawed toad, Xenopus laevis, on sounding rockets p 97 A92-20852 in space

SOYBEANS

Soybean stem growth under high-pressure sodium with p 254 A92-38102 supplemental blue lighting

SPACE ADAPTATION SYNDROME

Electrical vestibular stimulation and space motion sickness

[IAF PAPER ST-91-014] p 79 A92-20654 Human physiology in microgravity - An overview p 188 A92-32455

The effects of prolonged spaceflights on the human p 227 A92-34191 body

Pathogenesis of sensory disorders in microgravity p 269 A92-39135

Influences of antiorthostatic bed rest (ABR) on functional properties of neuromuscular system in man

p 270 A92-39162

FFT and amplitude spectrum evaluation of stabilograms on rats with respect to a consistent sensorimotor system of orientation control (SOC) p 265 A92-39204 An introduction to massage in the treatment of space

adaptation syndrome [IAF PAPER 92-0894] p 430 A92-57279 Space sickness predictors suggest fluid shift

involvement and possible countermeasures p 231 N92-22350

Space adaptation syndrome experiments (8-IML-1) p 235 N92-23625

SPACE BASES

Application of sunlight and lamps for plant irradiation in space bases p 133 A92-20985

C.E.B.A.S., a closed equilibrated biological aquatic system as a possible precursor for a long-term life support p 134 A92-20990 system?

Radiation protection for human exploration of the moon and Mars: Application of the MASH code system p 395 N92-31409 [DE92-014416]

SPACE COLONIES

The design and visualization of a space biosphere p 86 A92-17787

SPACE COMMERCIALIZATION

Commercial involvement in the development of space-based plant growing technology p 130 A92-20970

SPACE ENVIRONMENT SIMULATION

Simulation of a planetary habitation system adapted to

p 24 A92-12455 [IAF PAPER 91-036] Planetary quarantine in the solar system - Survival rates

of some terrestrial organisms under simulated space condition by proton irradiation [IAF PAPER 91-542] p 70 A92-18542

Antarctic analogs as a testbed for regenerative life support technologies [IAF PAPER 91-631] p 88 A92-20586

Survival in extreme dryness and DNA-single-strand p 104 A92-20960 Survival rates of some terrestrial microorganisms under

p 151 A92-20966 simulated space conditions Disinfection susceptibility of waterborne pseudomonads and Legionellae under simulated space vehicle conditions

[SAE PAPER 911402] p 201 A92-31329 Analog environments in space human factors
[AIAA PAPER 92-1527] p 277 A

n 277 A92-38626 Cosmic ray modification of organic cometary matter as simulated by cyclotron irradiation p 292 A92-39422 Space habitat contaminant growth models

p 404 A92-50184 Pituitary oxytocin and vasopressin content of rats flown on Cosmos 2044 p 381 A92-51495 Can terrestial microorganisms survive in interstellar p 414 A92-53744 Critical technologies: Spacecraft habitability, an update p 321 N92-27010

SPACE EXPLORATION

Human exploration and settlement of Mars - The roles of humans and robots

[IAF PAPER 91-035] The NASA Radiation Health Program p 76 A92-18543 (IAF PAPER 91-544)

Life sciences and space research XXIV(3) - Planetary biology and origins of life; Proceedings of the Topical Meeting of the Interdisciplinary Scientific Commission F (Meetings F7, F1, F8 and F9) and Evening Session 1 of the COSPAR 28th Plenary Meeting, The Hague, Netherlands, June 25-July 6, 1990 p 148 A92-20933 Planetary protection issues and the future exploration p 150 A92-20950

Planetary protection policy (U.S.A.)

p 150 A92-20951 Life sciences and space research XXIV(4) - Natural and artificial ecosystems; Proceedings of the Topical Meeting of the Interdisciplinary Scientific Commission F (Meetings F10, F11, F1 and F12) of the COSPAR 28th Plenary Meeting, The Hague, Netherlands, June 25-July 6, 1990 p 130 A92-20969

Preliminary design of health care systems for space exploration

[SAE PAPER 911369] p 115 A92-21783 The role of human factors in missions of exploration [SAE PAPER 911373] p 125 A92-21785 Advanced regenerative life support for space

(SAE PAPER 911500) p 209 A92-31387 Autonomous robotic systems for SEI tasks

p 285 A92-39509 An argument for human exploration of the moon and p 362 A92-45250 Mars Design and control of ultralight manipulators for interplanetary exploration p 406 A92-51727

We can't explore space without it - Common human space needs for exploration spaceflight

[IAF PAPER 92-0247] p 441 A92-55696 Needs for supervised space robots in space exploration

[IAF PAPER 92-0800] p 443 A92-57203 Life on ice. Antarctica and Mars p 65 N92-13662 Advanced regenerative life support for space p 287 N92-25839

Human support issues and systems for the space exploration initiative: Results from Project Outreach [NASA-CR-190320] p 315 N92-26193 Life support research and development, a Department

of Energy program for the Space Exploration Initiative [DE92-007681] p 316 N92-26375 Life support research and development for the Department of Energy Space Exploration Initiative

  Chrondrogenesis in micromass cultures of embryonic
 nouse limb mesenchymal cells exposed to microgravity
                                   p 223 N92-23605
(7-IML-1)
  Effect of microgravity and mechanical stimulation on the
in vitro mineralization and resorption of fetal mouse long
bones (7-IML-1)
                                   p 223 N92-23606
  Eggs: The role of gravity in the establishment of the
dorso-ventral axis in the amphibian embryo (7-IML-1)
                                   p 224 N92-23607
  The effect of space environment on the development
and aging of Drosophila Melanogaster (7-IML-1)
                                   p 224 N92-23608
  Effect of microgravity environment on cell wall
regeneration, cell divisions, growth, and differentiation of
plants from protoplasts (7-IML-1)
                                   p 224 N92-23609
  Embryogenesis and organogenesis of Carausius
morosus under space flight conditions (7-IML-1)
                                   p 224 N92-23610
  Growth and sporulation of Bacillus subtilis under
                                   p 224 N92-23612
microgravity (7-IML-1)
 Friend leukemia virus transformed cells exposed to
microgravity in the presence of DMSO (7-IML-1)
                                   p 224 N92-23613
  Proliferation and performance of hybridoma cells in
                                   p 225 N92-23614
microgravity (7-IML-1)
  Dynamic cell culture system (7-IML-1)
                                   p 225 N92-23615
  Growth, differentiation and development of Arabidopsis
thaliana under microgravity conditions (7-IML-1)
                                   p 225 N92-23616
  Transmission of gravistimulus in the statocyte of the
lentil root (7-IML-1)
                                    p 225 N92-23617
```

processing test) project

p 280 N92-25372

SUBJECT INDEX STEREOSCOPIC VISION

SPATIAL RESOLUTION

Confocal microscopy in microgravity research

p 95 A92-20841

Analysis of visual illusions using multiresolution wavelet decomposition based models

p 128 N92-17500 [AD-A243712]

Angular relation of axes in perceptual space p 237 N92-22347

SPECIFICATIONS

Improving in vivo calibration phantoms

{DE92-002157} p 120 N92-16550 Unmanned evaluation of BAUER high pressure breathing air P-5 purification system

p 146 N92-17331

SPECTRAL BANDS

Stable carbon isotope measurements using laser p 53 N92-13598 spectroscopy Differentiation on genus of aquatic macrophytes through remote sensing in the Tucurui Reservoir, Para State,

[INPE-5315-PRE/1712] p 297 N92-26721

SPECTRAL REFLECTANCE

Spectroscopy and reactivity of mineral analogs of the p 54 N92-13603 Martian soil Biologically-based neural network model of color

constancy and color contrast [AD-A248128] p 357 N92-29398

SPECTRAL SIGNATURES

Measurement of the spectral signature of small carbon clusters at near and far infrared wavelengths

p 52 N92-13591

SPECTROMETERS

Hydrazine monitoring in spacecraft

p 232 N92-22356 The rotating spectrometer: Biotechnology for cell p 222 N92-22700

SPECTROPHOTOMETRY

Pulse oximetry: Theoretical and experimental models p 168 N92-18339 (OUFL-1885/91)

SPECTROSCOPIC ANALYSIS

Recent spectroscopic findings concerning clay/water interactions at low humidity: Possible applications to models of Martian surface reactivity p 66 N92-13665 Fluorescence and UV spectroscopic examinations with PS-time resolution for system 2 of photosynthesis

[ETN-92-92129] p 419 N92-33651

SPECTROSCOPY

Proton NMR studies on human blood plasma: An application to cancer research p 5 N92-10545 Laboratory and observational study of the interrelation of the carbonaceous component of interstellar dust and p 52 N92-13592 solar system materials

Spectroscopy and reactivity of mineral analogs of the p 54 N92-13603

In-vivo proton magnetic resonance spectroscopy: Evaluation of multiple quantum techniques for spectral editing and a time domain fitting procedure for quantification

[ETN-92-91283] p 275 N92-25304

SPECTRUM ANALYSIS

Spectral representation in vision p 5 N92-10539 NASA SETI microwave observing project: Sky Survey p 64 N92-13651 element

Polyphase-discrete Fourier transform spectrum analysis for the Search for Extraterrestrial Intelligence sky survey p 91 N92-14251

In-vivo proton magnetic resonance spectroscopy: Evaluation of multiple quantum techniques for spectral editing and a time domain fitting procedure for

p 275 N92-25304 [ETN-92-91283] Demodulation processes in auditory perception

[AD-A250203] p 356 N92-29146 SPEECH

The effects of speech intelligibility level on concurrent visual task performance

[AD-A243015] p 127 N92-17052

SPEECH DEFECTS

Heart rate variability and auditory workload during noise stress - Speaker sex and bandpass effects on speech p 333 A92-45011 intelligibility

SPEECH RECOGNITION

Spoken language applications in air traffic control p 85 A92-17651 [AIAA PAPER 91-3797] Alvey Man-Machine Interface project MMI/132 speech technology assessment

p 446 N92-33832 INPL-RSA(EXT)-261

SPERMATOGENESIS

Comparative study of spermatogonial survival after X-ray exposure, high LET (HZE) irradiation or spaceflight

p 101 A92-20899

SPERMATOZOA

Comparative study of spermatogonial survival after X-ray exposure, high LET (HZE) irradiation or spaceflight D 101 A92-20899

Biological patterns: Novel indicators for pharmacological

SPHEROIDS

Three-dimensional cultured glioma cell lines [NASA-CASE-MSC-21843-1-NP] p 226 N92-24052

SPINAL CORD Descending motor pathways and the spinal motor

system - Limbic and non-limbic components p 120 A92-23392

Morphological changes in the spinal cord and intervertebral ganglia of rats exposed to different gravity p 264 A92-39195

The effect of repeated loads and metabolic intensity on reparative-destructive processes in spine

p 272 A92-39197 Ventral horn cell responses to spaceflight and hindlimb p 379 A92-51486 suspension

Acetylcholinesterase inhibitors on the spinal cord p 395 N92-31326 [AD-A252694]

SPINE

Low back pain in pilots of various aircraft - A comparative study p 36 A92-16407 Effect of Gz forces and head movements on cervical p 392 A92-50290 erector spinae muscle strain Back pain in astronauts (8-IML-1) p 234 N92-23622 In vitro measurement of nucleus pulposus swelling pressure: A new technique for studies of spinal adaptation (NĂSA-ŤM-1038531 p 329 N92-29397

Adapting the ADAM manikin technology for injury probability assessment

AD-A2523321 p 408 N92-30844

SPLEEN

Some indices of protein and nucleic acid metabolism in the lymphoid organs of rats subjected to hypokinesia and to vitamin-B1 deficiency p 155 A92-25265 Protective effects of Kangwei-1 on multipotential hemopoietic stem cells in gamma-ray irradiated mice

p 417 A92-56260

SPLICING

Self-splicing introns in tRNA genes of widely diverger hacteria p 257 A92-38779

SPORES Survival in extreme dryness and DNA-single-strand

p 104 A92-20960 Extreme dryness and DNA-protein cross-links --exposure of fungal conidia and Bacillus subtilus spores

p 105 A92-20965 to space vacuum environments Thymine photoproduct formation and inactivation of intact spores of Bacillus subtilis irradiated with short

wavelength UV (200-300 nm) at atmospheric pressure and p 152 A92-20967 in vacuo DNA-strand breaks limit survival in extreme dryness

p 153 A92-22109 An evaluation of the potential of combination processes involving heat and irradiation for food preservation

[DE91-638734] p 49 N92-12423 Growth and sporulation of Bacillus subtilis under microgravity (7-IML-1) p 224 N92-23612

Total Dose Effects (TDE) of heavy ionizing radiation in fungus spores and plant seeds: investigations p 299 Preliminary p 299 N92-27124 Long-term exposure of bacterial spores to space

p 299 N92-27126

SQUID (DETECTORS)

Multiple dipole modeling and localization from spatio-temporal MEG data — Magnetoencephalogram p 327 A92-45983

Preview of magnetoencephalography (MEG) p 190 N92-21008 [PB92-111632]

Measurement of the magnetic and electrical activity of individual cells in vitro

[AD-A250881] p 418 N92-32345

STARILITY

Paleobiomarkers and defining exobiology experiments p 54 N92-13601 for future Mars experiments Spatial vision within egocentric and exocentric frames p 196 N92-21482 of reference

STAINLESS STEELS

Corrosion consequences of microfouling in water reclamation systems

[SAE PAPER 911519] p 141 A92-21858

STANDARDIZATION

Use of a standardized test battery for the evaluation of psychomotor performances [CERMA-90-44(LCBA)] p 43 N92-12414

standardized cognitive p 237 N92-22335 Microgravity effects on performance measures Development of a standard anthropometric dimension

set for use in computer-aided glove design [AD-A246272] p 323 N92-27664

STANDARDS

Improving in vivo calibration phantoms

p 120 N92-16550 [DE92-002157] Radiation effects in space: Research needs

p 276 N92-25508 IDE92-0065971

ESA PSS-03-406: Life support and habitability manual p 288 N92-25843

Revision of certification standards for aviation p 359 N92-30127 maintenance personnel

Simplified air change effectiveness modeling p 409 N92-31309 [DE92-010577]

STAR FORMATION

The chemistry of dense interstellar clouds p 51 N92-13589

STATE ESTIMATION

State estimation and error diagnosis for biotechnological processes [ETN-92-91744] p 331 N92-29754

The use of state estimators (observers) for on-line estimation of non-measurable process variables

p 331 N92-29755 State estimation and control of the IBE-fermentation with product recovery p 331 N92-29756 A low sensitivity observer for complex biotechnological

p 331 N92-29757 processes Analytical tuning of a low sensitivity observer applied

to a continuous ethanol fermentation with product recovery p 332 N92-29758 Improved balancing methods and error diagnosis for p 332 N92-29759 bio(chemical) conversions Sequential application of data reconciliation for sensitive

detection of systematic errors STATIC CHARACTERISTICS

A comparison of static and dynamic characteristics between rectus eve muscle and linear muscle model predictions p 118 A92-22261

p 332 N92-29760

STATISTICAL ANALYSIS

Statistical differentiation between malignant and benign prostate lesions from ultrasound images

p 364 A92-46279 The construction of personality questionnaires for

selection of aviation personnel [DLR-FB-91-18] p 176 N92-19410 Sequential application of data reconciliation for sensitive etection of systematic errors p 332 N92-29760 detection of systematic errors

Stress reactivity: Five-factor representation of psychobiological typology [AD-A252715] p 409 N92-31327

Computing science and statistics: Proceedings of the Symposium on the Twenty-Third Interface Critical Applications of Scientific Computing: Biology, engineering, medicine and speech

AD-A2529381 p 419 N92-33563 STATISTICAL CORRELATION

Correlation and prediction of dynamic human isolated oint strength from lean body mass

p 317 N92-26682 [NASA-TP-3207]

STATISTICAL DISTRIBUTIONS The distribution of solar flares and probable relations

to biological effects p 79 A92-19070 STATISTICS

Anthropometric Survey of US Army Personnel: Pilot summary statistics, 1988

[AD-A241952] p 145 N92-16560 STEADY FLOW

Incompressible viscous flow computations for the pump components and the artificial heart

[NASA-CR-190258] p 192 N92-22030 STEADY STATE

Incompressible viscous flow computations for the pump components and the artificial heart [NASA-CR-190258] p 192 N92-22030 Modelling and experimental validation of carbon dioxide

evolution in alkalophilic cultures

Simple control-theoretic models of human steering activity in visually guided vehicle control

p 195 N92-21477 STELLAR ENVELOPES

Measurement of the spectral signature of small carbon clusters at near and far infrared wavelengths

SYNTHESIS (CHEMISTRY) SUBJECT INDEX

Recognition of paleobiochemicals by a combined molecular sulfur and isotope geochemical approach

p 220 A92-35524

SULFUR COMPOUNDS

Thiocapsa roseopersicina, bacterium sulfur-recycling in microbial ecosystems designed for p 297 N92-26977 CELSS and space purposes

SUN

Photochemical reactions of cyanoacetylene and cyanoacetylene: Possible processes in Titan's processes in Titan's p 55 N92-13609 dicyanoacetylene: Possible atmosphere

SUNLIGHT

The role of sunlight in the aetiology of malignant p 35 A92-16402 melanoma in airline pilots Application of sunlight and lamps for plant irradiation p 133 A92-20985 in space bases Biosphere 2 Test Module - A ground-based sunlight-driven prototype of a closed ecological life support p 133 A92-20987

The characteristics of a liquid crystal flat panel display p 314 A92-43223

User evaluation of laser ballistic sun, wind and dust goggle lenses (dye technology)

[AD-A243245] p 146 N92-17143

Lunar radiator shade [NASA-CASE-MSC-21868-1] p 215 N92-21589

SUPERSATURATION

Oxygen supersaturation in ice-covered Antarctic lakes - Biological versus physical contributions

p 152 A92-21498

SUPERSONIC SPEED

Wind tunnel test of upper arm of an ejection crewman and ejection seat at transonic-supersonic speed

p 405 A92-50240

SUPERSONIC TRANSPORTS

Synthetic vision in the Boeing high speed civil ansport p 360 A92-44927 transport SUPINE POSITION

Relative contribution of gravity to pulmonary perfusion p 70 A92-18599 heterogeneity Relations between cardiac function and body tilting

p 421 A92-53739 Change of skin blood flow by body tilting

p 422 A92-53740 A study of human body response to thorax-back (+Gx)

p 426 A92-56261 landing impact Hemodynamic responses to seated and supine lower

body negative pressure - Comparison with +Gz p 427 A92-56461 acceleration

SUPPORT SYSTEMS

The Military Aircrew Head Support System (MAHSS)

p 179 N92-18988 Engineering of a new overall system to improve the

interaction between the crew and the ground-based scientists and personnel p 320 N92-26995 Crew-friendly support systems for internal vehicular

activities in zero gravity, experimented underwater for the p 322 N92-27025 Columbus programme

End effector with astronaut foot restraint

[NASA-CASE-MSC-21721-1] p 145 N92-16559

SURFACE GEOMETRY

Perceiving environmental structure from optical motion p 194 N92-21470

SURFACE PROPERTIES

Biologically-based neural network model of color constancy and color contrast

[AD-A248128] p 357 N92-29398

SURFACE REACTIONS

Recent spectroscopic findings concerning clay/water interactions at low humidity: Possible applications to models of Martian surface reactivity p 66 N92-13665 A fractal computer model of macromolecule-cell surface interactions

p 296 N92-26289

SURFACE TEMPERATURE

Dynamic changes in body surface temperature and heart rate rhythm during bed-rest p 300 A92-43006 SURGERY

Surgery in space - Surgical principles in a neutral buoyancy environment p 74 A92-17772

Laser medicine and surgery in microgravity [SAE PAPER 911336] p 115 A92-21764 Cataract surgery and intraocular lenses in military p 228 A92-34262 Laser surgery procedures in the operational KC-135E aviation environment p 335 A92-45823

A review of microgravity surgical investigations p 428 A92-56470

p 233 N92-22734 Surgical force detection probe SURGES

The detection of low-amplitude yawing motion transients in a flight simulator p 442 A92-55969 SURGICAL INSTRUMENTS

Device for removing foreign objects from anatomic organs

[NASA-CASE-GSC-13306-1] p 431 N92-33032 SURVEYS

Survey on possibility to utilize effectively underground p 48 N92-12417 [DE92-7030441

Engineering derivatives from biological systems for advanced aerospace applications

[NASA-CR-177594] n 74 N92-15533 Anthropometric Survey of US Army Personnel: Pilot summary statistics, 1988

p 145 N92-16560 [AD-A241952] USI rapid prototyping tool evaluations survey

p 147 N92-17673 [AD-A243168] Hand anthropometry of US Army personnel

[AD-A2445331 p 212 N92-20982 A study of pilot attitudes regarding the impact on mission effectiveness of using new cockpit automation technologies to replace the navigator/weapon system

officer/electronic warfare officer [AD-A246683] p 368 N92-28286 A profile of scientist and engineer training conducted by the Naval Avionics Center

[ÁD-A245925] p 354 N92-28408 Correlational analysis of survey and model-generated workload values

[AD-A247153] p 368 N92-28518 SURVIVAL

Survival in extreme dryness and DNA-single-strand p 104 A92-20960 Anhydrobiosis - A strategy for survival

p 104 A92-20962 Characterization of a rotating drum for long term studies of aerosols

p 32 N92-12399 [FOA-C-40261-4.5] Survival of epiphytic bacteria from seed stored on the Long Duration Exposure Facility (LDEF)

p 298 N92-27122 Track structure model of cell damage in space flight NASA-TP-3235] p 433 N92-34154

SURVIVAL EQUIPMENT

A way of great promise for advanced aircrew p 48 A92-17251 Annual SAFE Symposium, 28th, San Antonio, TX, Dec. 11-13, 1990, Proceedings p 238 A92-32976 Annual SAFE Symposium, 29th, Las Vegas, NV, Nov. 11-13, 1991, Proceedings p 241 A92-35426 Survival Technology Restraint Improvement Program p 241 A92-35429

SUSPENDING (HANGING)

Effects of a simulated microgravity model on cell structure and function in rat testis and epididymis p 158 A92-26549

Effect of long-term hindlimb suspension on blood p 260 A92-39155 components Influences of simulated microgravity and hypergravity on the immune functions in animals p 260 A92-39157 Muscle strength and endurance following lowerlimb D 270 A92-39161

Preliminary results of the influence of direct stimulation on the mechanical properties of the soleus muscle of rats during hindlimb suspension p 263 A92-39191 Protection of Chinese medicine CWJ against suspension-induced bone-loss in rats

p 264 A92-39201 Observation of dynamic changes of rat soleus during p 327 A92-45949 tail suspension

The effect of endurance exercise on suspension-induced atrophy of rat slow and fast skeletal muscle fibers

p 413 A92-53738 The relationship between blood flow and mechanical characteristics of soleus muscle in whole body suspended rats p 417 A92-56264

SWEAT

Waste streams in a crewed space habitat

p 142 A92-23325 Graduation of thermal state of the body and its use in the evaluation of personal heat protective equipments p 302 A92-43040

SWEAT COOLING

An integrated G-suit/pressure jerkin/immersion suit incorporating vapour permeability and air cooling

p 244 A92-35456

SWELLING

In vitro measurement of nucleus pulposus swelling pressure: A new technique for studies of spinal adaptation to gravity p 329 N92-29397

[NASA-TM-103853]

SWIMMING

Skeletal muscle changes after endurance training at high p 78 A92-18596

Swimming behavior of Paramecium - First results with the low-speed centrifuge microscope (NIZEMI)

p 95 A92-20842

The dynamics of unicellular swimming organisms

p 383 A92-52394

The effect of microgravity on (1) pupil size, (2) vestibular caloric nystagmus and (3) the swimming behaviour of p 223 N92-23072

Hemodynamic responses to pressure breathing during p 160 N92-18982 +Gz (PBG) in swine

SWITCHES

Reliability of a Shuttle reaction timer

p 145 N92-16562 [NASA-TP-3176]

SYMBIOSIS

A new finding in the Baikal environment - A biocommunity based on bacterial chemosynthesis p 1 A92-12225 Symbiosis and the origin of eukaryotic motility

p 61 N92-13639 genetic basis specificity dinoflagellate-invertebrate symbiosis

[AD-A242631] p 74 N92-15531 Molecular mechanisms of chemosensory receptors. signal transducers, and the activation of gene expression ntrolling establishment of a marine symbiosis

FAD-A2427291 p 74 N92-15532 Evolution as a molecular cooperative phenomenon [DE92-609575] p 110 N92-17877

SYMBOLS Color coding and size enhancements of switch symbol p 19 A92-11144 critical features

Optimal symbol set selection - A semiautomated procedure p 193 A92-31471

SYMPATHETIC NERVOUS SYSTEM

Influences of chemical sympathectomy, demedulation, and hindlimb suspension on the V(O2)max of rats

p 158 A92-26334 Age-dependency of sympathetic nerve response to

gravity in humans p 270 A92-39166 SYNAPSES

- Ultrastructural, Synaptic plasticity and gravity biochemical and physico-chemical fundamentals n 94 A92-20835

Synaptic plasticity and memory formation [AD-A240121] p 15 N92-10285

Long term synaptic plasticity and learning in neuronal networks

p 2 N92-11613 [AD-A240366] Activity-driven CNS changes in learning and development

p 175 N92-19064 [AD-A2437901 Amino acid neurotransmitters: mechanisms of their uptake into synaptic vesicles

p 190 N92-21186 (NDRE/PUBL-91/1003) Involvement of lipid metabolism in chemical transmission processes at mossy fiber synapses

p 311 N92-27989 [AD-A247198] The properties of the uptake system for glycine in synaptic vesicles

[ISSN-0800-4412] p 385 N92-31152 Acetylcholinesterase inhibitors on the spinal cord p 395 N92-31326 [AD-A2526941

Organization of the human circadian system p 397 N92-31905 [AD-A2474981

TELEROBOTICS SUBJECT INDEX

TASK PLANNING (ROBOTICS)	Waste water processing technology for Space Station	Experiments in teleoperator and autonomous control of
Development of flying telerobot model for ground	Freedom - Comparative test data analysis	space robotic vehicles p 144 A92-23700
experiments [IAF PAPER 91-056] p 24 A92-12470	[SAE PAPER 911416] p 205 A92-31367 A comparison of four types of feedback during	Force-reflecting bilateral master-slave teleoperation
Highlights of NASA research in telerobotics	Computer-Based Training (CBT)	system in virtual environment p 144 A92-23718 Near-minimum-time control of a flexible manipulator
p 143 A92-23662	[AD-A241626] p 45 N92-13579	p 178 A92-28150
Supervisory telerobotics testbed for unstructured	Technology assessment and strategy for development	Natural transition from rate to force control of a
environments p 178 A92-26660	of a rapid field water microbiology test kit	manipulator_
Control of robot dynamics using acceleration control	[AD-A243413] p 167 N92-18076 Biotechnology in a global economy	[AIAA PAPER 92-1452] p 283 A92-38580
[AIAA PAPER 92-1573] p 283 A92-38666	[PB92-115823] p 185 N92-20215	Grasp force control in telemanipulation [AIAA PAPER 92-1453] p 283 A92-38581
Telerobotic interactions in an EVA worksite	In-vivo proton magnetic resonance spectroscopy:	Teleoperator performance in simulated Solar Maximum
[AIAA PAPER 92-1575] p 284 A92-38668	Evaluation of multiple quantum techniques for spectral	Satellite repair
Redundant arm control in a supervisory and shared control system	editing and a time domain fitting procedure for	[AIAA PAPER 92-1574] p 284 A92-38667
[AIAA PAPER 92-1578] p 284 A92-38669	quantification [ETN-92-91283] p 275 N92-25304	Telescience testbed - Operational support functions for
Dual-arm supervisory and shared control space servicing	MELISSA: Physical links of compartments	biomedical experiments p 375 A92-50176 Achieving a balance between autonomy and
task experiments	Nitrobacter/Spirulina p 319 N92-26981	teleoperation in specifying plans for a planetary rover
[AIAA PAPER 92-1677] p 285 A92-38735	EVA life support design and technology developments	p 406 A92-51711
Autonomous robotic systems for SEI tasks	p 320 N92-27002	Design and testing of a non-reactive, fingertip, tactile
p 285 A92-39509	Using intelligent simulation to enhance human performance in aircraft maintenance	display for interaction with remote environments
Robots for space experiments p 439 A92-53623 Contribution to robot-task adaptation, introduction and	p 372 N92-30126	p 406 A92-51719 Operator-coached machine vision for space
use of robot anisotropy and task object for the design of	Adapting the ADAM manikin technology for injury	telerobotics p 406 A92-51729
the workstation	probability assessment	Situation assessment for space telerobotics
[ISAL-91-0095] p 444 N92-33056	[AD-A252332] p 408 N92-30844	p 406 A92-51731
TASKS	Alvey Man-Machine Interface project MMI/132 speech technology assessment	Telerobotic capabilities for space operations
Cockpit task management - Preliminary definitions, normative theory, error taxonomy, and design	[NPL-RSA(EXT)-26] p 446 N92-33832	p 406 A92-51732 Implementation and control of a 3 degree-of-freedom
recommendations p 241 A92-33802	TECHNOLOGY TRANSFER	force-reflecting manual controller p 407 A92-51735
Development of task network models of human	Cooperative research and development opportunities	Telescience testbed for biomedical experiment in space
performance in microgravity	with the National Cancer Institute p 232 N92-22428	- Operational managements p 413 A92-53736
[AIAA PAPER 92-1311] p 282 A92-38501	Technologies for the marketplace from the Centers for Disease Control p 233 N92-22429	Sensory substitution of force feedback for the
Task analysis and workload prediction model of the MH-60K mission and a comparison with UH-60A workload	Humans and machines in space: The payoff	human-machine interface in space teleoperation [IAF PAPER 92-0246] p 441 A92-55686
predictions. Volume 1: Summary Report	[ISBN-0-87703-343-9] p 444 N92-33099	Hand movement strategies in telecontrolled motion
[AD-A241204] p 50 N92-13583	TECHNOLOGY UTILIZATION	along 2-D trajectories p 442 A92-55965
The effects of speech intelligibility level on concurrent	Technology applications for Army helicopter crew	Automation and robotics teleautonomous control system
visual task performance	training [AIAA PAPER 92-4132] p 398 A92-52429	for Columbus modules
[AD-A243015] p 127 N92-17052 Neural network classification of mental workload	[AIAA PAPER 92-4132] p 398 A92-52429 Beneficial uses of radiation	[IAF PAPER 92-0804] p 443 A92-57205 Human Machine Interfaces for Teleoperators and Virtual
conditions by analysis of spontaneous	[DE92-003024] p 168 N92-18799	Environments Conference
electroencephalograms	Advanced technology for portable personal	[NASA-CP-10071] p 26 N92-11638

TELEVISION EQUIPMENT SUBJECT INDEX

TELEVISION EQUIPMENT		SUBJECTINDEX
The space robot technology experiment ROTEX on	A combined cabin/avionics air loop design for the Space	TEMPORAL RESOLUTION
spacelab-D2	Station logistic module p 288 N92-25841	Fluorescence and UV spectroscopic examinations with
[AIAA PAPER 92-1294] p 282 A92-38491	SIMTAS: Thermo- and fluiddynamic simulation of	PS-time resolution for system 2 of photosynthesis [ETN-92-92129] p 419 N92-33651
Results of telerobotic hand controller study using force information and rate control	complex systems p 291 N92-25896 Fourth European Symposium on Space Environment	[ETN-92-92129] p 419 N92-33651 TENDONS
[AIAA PAPER 92-1451] p 283 A92-38579	Control Systems, volume 2	Morphological studies of bone and tendon in
Natural transition from rate to force control of a	[ESA-SP-324-VOL-2] p 317 N92-26950	post-spaceflight rats p 376 A92-51472
manipulator [AIAA PAPER 92-1452] p 283 A92-38580	Design of JEM temperature and humidity control	TENSORS
[AIAA PAPER 92-1452] p 283 A92-38580 Grasp force control in telemanipulation	system p 318 N92-26957	Modeling of impact dynamics between free-floating target and space robotic arm - An extended inertial tensor
[AIAA PAPER 92-1453] p 283 A92-38581	Progress in the development of the Hermes	approach
Telerobotic interactions in an EVA worksite	evaporators p 319 N92-26984 EVA space suit thermal control and micrometeoroid	[IAF PAPER 92-0812] p 444 A92-57213
[AIAA PAPER 92-1575] p 284 A92-38668	protection p 320 N92-27004	TERRAIN Effect of two types of scene detail on detection of altitude
Dual-arm supervisory and shared control space servicing task experiments	Development of European sublimator technology for	change in a flight simulator
[AIAA PAPER 92-1677] p 285 A92-38735	EVA p 321 N92-27018	[AD-A242034] p 128 N92-17758
A robot based concept for automation and servicing of	Heat rejection system for an advanced extravehicular	The perception of surface layout during low level flight
scientific payloads aboard orbiting laboratories p 286 A92-39540	mobility unit portable life support system p 322 N92-27020	p 195 N92-21471
A kinematic analysis of the modified flight telerobotic	TEMPERATURE DEPENDENCE	Pilot/vehicle model analysis of visually guided flight p 197 N92-21484
servicer manipulator system p 286 A92-39749	The properties of the uptake system for glycine in	Area-of-Interest display resolution and stimulus
Force-reflection and shared compliant control in	synaptic vesicles	characteristics effects on visual detection thresholds
operating telemanipulators with time delay p 286 A92-40369	[ISSN-0800-4412] p 385 N92-31152	[AD-A247830] p 310 N92-27863 TERRAIN ANALYSIS
Operator-coached machine vision for space	TEMPERATURE DISTRIBUTION Distribution and variation of the skin temperature and	A visual display aid for planning rover traversals
telerobotics p 406 A92-51729	heat dissipation over human head and neck at different	[AIAA PAPER 92-1313] p 282 A92-38502
Situation assessment for space telerobotics	ambient temperatures p 301 A92-43022	TERRESTRIAL PLANETS
p 406 A92-51731 Telerobotic capabilities for space operations	The changes of surface temperatures of various regions	Cometary origin of carbon and water on the terrestrial planets p 148 A92-20934
p 406 A92-51732	of the body under different ambient temperatures and work loads p 302 A92-43036	Can terrestial microorganisms survive in interstellar
Role of computer graphics in space telerobotics -	Fluctuation in tissue temperature due to environmental	environment? p 414 A92-53744
Preview and predictive displays p 407 A92-51733	variation. Part 1: Effect of free convection currents	TEST CHAMBERS
Optical target location using machine vision in space robotics tasks p 407 A92-51734	[DE91-641475] p 72 N92-15523	Effects on man of 46-day life in a confined space at normal pressure
Implementation and control of a 3 degree-of-freedom	Fluctuation in tissue temperature due to environmental	[SAE PAPER 911533] p 117 A92-21865
force-reflecting manual controller p 407 A92-51735	variation. Part 2: Effect of body thermal radiation [DE91-641476] p 73 N92-15524	Two different approaches for control and measurement
Research and development of a tele-robot for space use p 439 A92-53625	Fluctuation in tissue temperature due to environmental	of plant functions in closed environmental chambers [PB92-108067] p 161 N92-19911
Development of free-flying space telerobot, ground	variation. Part 3: Effect of external thermal radiation	TEST FACILITIES
experiments on 2-dimensional flat test bed	[DE91-641477] p 73 N92-15525	A testbed for the evaluation of computer aids for enroute
[AIAA PAPER 92-4308] p 440 A92-55155	TEMPERATURE EFFECTS	flight path planning p 21 A92-11175
Needs for supervised space robots in space exploration	G-endurance during heat stress and balanced pressure breathing p 165 A92-26331	Biosphere 2 Test Module - A ground-based sunlight-driven prototype of a closed ecological life support
[IAF PAPER 92-0800] p 443 A92-57203	Tyrosine hydroxylase activity in Drosophila virilis under	system p 133 A92-20987

TISSUES (BIOLOGY) SUBJECT INDEX

THERAPY

A case of trauma-induced cyclothymia in a pilot p 13 A92-13021

THERMAL ABSORPTION

Biophysical techniques for examining metabolic, proliferative, and genetic effects of microwave radiation p 109 N92-17288 [AD-A241903]

THERMAL COMFORT

The impact of advanced garments on pilot comfort SAE PAPER 911442] p 140 A92-21838 (SAE PAPER 911442)

Graduation of thermal state of the body and its use in the evaluation of personal heat protective equipments p 302 A92-43040

Physiological evaluation of the pilot's survival clothing p 313 A92-43042 for cold districts Air movement, comfort and ventilation in workstations

p 49 N92-12424

THERMAL CONDUCTIVITY

Laser-induced contained-vaporization in tissue p 276 N92-25993 IDE92-0084461

THERMAL DEGRADATION

Thermal degradation events as health hazards - Particle vs gas phase effects, mechanistic studies with particles p 375 A92-50187

Polymer degradation and ultrafine particles - Potential p 391 A92-50188 inhalation hazards for astronauts THERMAL ENVIRONMENTS

Investigation of parameters for ergonomical designing of environmental controlling system in aircraft cabin p 313 A92-43019

Alleviation of thermal strain in engineering space personnel aboard CF ships with the exotemp personal cooling system p 123 N92-17599 [AD-A242889]

THERMAL INSULATION

Thermal resistance values of some protective clothing ensembles p 324 N92-28166

[AD-A245937]

THERMAL NEUTRONS Preliminary total dose measurements on LDEF --- long

duration exposure facility

p 298 N92-27123 THERMAL PROTECTION Spacesuit glove thermal micrometeoroid garment

protection versus human factors design parameters [SAE PAPER 911383] p 199 A92-31308 Aircrew Cooling System p 243 A92-35450 Physiological protection equipment for combat aircraft:

Integration of functions, principal technologies p 180 N92-18996

Effect of textile test sample size on assessment of protection to skin from thermal radiation

p 316 N92-26472 Fourth European Symposium on Space Environment Control Systems, volume 2

[ESA-SP-324-VOL-2] p 317 N92-26950 Thermal assessment of Mustang Industries, Inc. neoprene quick-don anti-exposure immersion suits and storage evaluation for the CP140 Aurora aircraft

p 444 N92-32790 [DCIEM-90-23] First Lunar Outpost crew module thermal protection p 445 N92-33345 design sensitivity

THERMAL RADIATION

Fluctuation in tissue temperature due to environmental variation. Part 2: Effect of body thermal radiation

[DE91-641476] p 73 N92-15524

THERMAL RESISTANCE

Thermal resistance values of some protective clothing ensembles

p 324 N92-28166 [AD-A2459371

THERMAL STRESSES

Evaluation of somatic eigenstate under combined hypoxia, heat, noise and vibration p 302 A92-43030
A computer simulation for predicting the time course of thermal and cardiovascular responses to various combinations of heat stress, clothing, and exercise

p 26 N92-10288 [AD-A240023] Alleviation of thermal strain in engineering space personnel aboard CF ships with the exotemp personal cooling system

p 123 N92-17599 [AD-A2428891 Investigation of the effect of cooling the feet as a means of reducing thermal stress

p 172 N92-19333 [AD-A244264] The electronic evaluation of the Advanced Dynamic Anthropomorphic Manikin (ADAM) in high temperature environments

[AD-A245459] p 316 N92-26528 Physiological design goals and proposed thermal limits

for US Navy thermal garments: Proceedings of 2 conferences sponsored by the Naval Medical Research and Development Command

p 317 N92-26665 [AD-A245543]

THERMODYNAMIC PROPERTIES

Physiological evaluation of the pilot's survival clothing for cold districts p 313 A92-43042 Stability of peptides in high-temperature aqueous p 418 A92-56706

THERMODYNAMICS Model of air flow in a multi-bladder physiological

p 180 N92-18997 protection system
THERMOLUMINESCENCE

Preliminary total dose measurements on LDEF

p 103 A92-20921 Facts about food irradiation: Controlling the process p 215 N92-21591 [DE92-614091] Radiation monitoring container device (16-IML-1)

p 226 N92-23629 THERMOPHILES

molecular chaperone from a thermophilic archaebacterium is related to the eukaryotic protein

t-complex polypeptide-1 THERMOPHYSICAL PROPERTIES

Thermophysical properties of lysozyme (protein) p 294 A92-44385 solutions

p 69 A92-17287

THERMOREGULATION

Core temperature 'null zone' --- between threshold for shivering thermogenesis and sweating in humans

p 3 A92-10351 Effects of hypoxia and cold acclimation on thermoregulation in the rat p 1 A92-10353
The zone of thermal neutrality during seasonal adaptation of humans to high temperature p 75 A92-18213

Exercise thermoregulation - Possible effects of

[SAE PAPER 911460] p 117 A92-21850 Fusible heat sink materials - An identification of alternate candidates --- for astronaut thermoregulation in EVA portable life support systems

[SAE PAPER 911345] p 200 A92-31322 Evaluation of temperature adaptation in the space nvironment p 229 A92-35630
Peripheral and central blood flow in man during cold, environment thermoneutral, and hot water immersion

p 266 A92-37169 Gravitational aspects of thermoregulation and aerobic work capacity p 268 A92-39134 p 335 A92-45950 Cold and hypoxia

A computer simulation for predicting the time course of thermal and cardiovascular responses to various combinations of heat stress, clothing, and exercise p 26 N92-10288 [AD-A2400231

The effects of pralidoxime, atropine, and pyridostigmine on thermoregulation and work tolerance in the patas monkey

[AD-A242556] p 73 N92-15529 Thermal responses during extended water immersion: Comparisons of rest and exercise, and levels of

[AD-A244305] p 172 N92-19031 Investigation of the effect of cooling the feet as a means of reducing thermal stress

[AD-A244264] p 172 N92-19333 Arterio-venous anastomoses and thermoregulation [AD-A245385]
Thermoregulation during spaceflight p 306 N92-27361

p 337 N92-28420 [NASA-TM-103913] Secretory mechanisms in opiocortin cells during cold

stress [AD-A252317] p 394 N92-30719

THIAMINE Some indices of protein and nucleic acid metabolism

in the lymphoid organs of rats subjected to hypokinesia and to vitamin-B1 deficiency p 155 A92-25265 THICKNESS

Radiation preservation of dry fruits and nuts

p 144 N92-16557 [DE91-642163] THIOLS

Role of endogenous thiols in protection

p 113 A92-20901 Radioprotection by polysaccharides alone and in combination with aminothiols p 113 A92-20905

Effect of weak, extremely low-frequency magnetic fields on the time organization of exchange between thiol groups and lipid peroxidation products p 327 A92-46602

THORAX

Dynamic response of thorax and abdomen to windblast p 301 A92-43021 Maximum intra-thoracic pressure with PBG and AGSM p 169 N92-18979 [DCIEM-91-43] THORIUM

tonizing radiation risk assessment, BEIR 4

[DE92-004014] p 172 N92-19273

THREE DIMENSIONAL FLOW

Incompressible viscous flow computations for the pump components and the artificial heart [NASA-CR-190258] p 192 N92-22030

THREE DIMENSIONAL MODELS

Three dimensional display technology for aerospace and p 22 A92-11197 visualization

Confocal microscopy in microgravity research

p 95 A92-20841

p 394 N92-30719

Computer aided modelization of ribosomic data [ETN-91-90161] p 31 N92-12391 Incompressible viscous flow computations for the pump components and the artificial heart

p 192 N92-22030 [NASA-CR-190258] CAD system for HFE analyses: Zero-g posture in optimisation of Columbus APM crew workstations ---

human factors engineering p
Cooperativity and 3-D representation p 319 N92-26991

(AD-A2530151 p 433 N92-33928

THRESHOLDS (PERCEPTION)

Area-of-Interest display resolution and stimulus characteristics effects on visual detection thresholds [AD-A2478301 p 310 N92-27863 Function of panel M pathways in primates

[AD-A250275] p 401 N92-31758 Function of P and M pathways in primates
[AD-A250055] p 386

p 386 N92-31778 THRUST VECTOR CONTROL

Cockpit design consideration for highly agile aircraft

p 362 A92-45051 THYMINE

Thymine photoproduct formation and inactivation of intact spores of Bacillus subtilis irradiated with short wavelength UV (200-300 nm) at atmospheric pressure and

THYMUS GLAND

Some indices of protein and nucleic acid metabolism in the lymphoid organs of rats subjected to hypokinesia p 155 A92-25265 and to vitamin-B1 deficiency

THYROID GLAND

Thyroid effects of iodine and iodide in potable water p 201 A92-31328 [SAE PAPER 911401] Secretory mechanisms in opiocortin cells during cold stress

(AD-A252317)

THYROXINE

Changes of serum cortisol, insulin, glucagon, thyroxines and cyclic nucleotides pre- and post-flight in pilots p 335 A92-45946

The environmental distribution of late proterozoic

p 61 N92-13637 organisms

Mechanisms of temporal pattern discrimination by human observers

[AD-A243051] p 127 N92-17336 TIME DEPENDENCE

Characterization of a rotating drum for long term studies of aerosols

[FOA-C-40261-4.5] p 32 N92-12399 TIME LAG

The effects of simulator time delays on a sidestep landing maneuver - A preliminary investigation

p 12 A92-11202 Supervised space robotic system - Operator interface design

[IAF PAPER 91-027] p 24 A92-12448 Force-reflecting bilateral master-slave teleoperation system in virtual environment p 144 A92-23718

Force-reflection and shared compliant control in operating telemanipulators with time delay p 286 A92-40369

An Electronic Visual Display Attitude Sensor (EVDAS) for analysis of flight simulator delays [AIAA PAPER 92-4167] p 407 A92-52453

TIME MEASUREMENT

Age and the elderly internal clock - Further evidence for a fundamentally slowed CNS p 9 A92-11151

TIME OF FLIGHT SPECTROMETERS

Development of a portable contamination detector for

use during EVA [SAE PAPER 911387] p 199 A92-31312 TIME OPTIMAL CONTROL

Near-minimum-time control of a flexible manipulator p 178 A92-28150

TIME RESPONSE Study on zero flight time training p 307 A92-43114
TIME SHARING

Differences in time-sharing ability between successful and unsuccessful trainees in the landing craft air cushion

vehicle operator training program TIMING DEVICES

Reliability of a Shuttle reaction timer [NASA-TP-3176]

p 145 N92-16562 TISSUES (BIOLOGY)

RBE for non-stochastic effects p 103 A92-20924 Multiple cell hits by particle tracks in solid tissues

p 103 A92-20925 GTR (Guided Tissue Regeneration) incorporating a modified microgravity surgical chamber and Kavo-3-Mini unit for the treatment of advanced periodontal disease

encountered in extended space missions p 115 A92-21765 [SAE PAPER 911337]

p 10 A92-11169

TITAN SUBJECT INDEX

Dynamics of kidney tissue and vessel changes in white BrainMap: A database of functional neuroanatomy Toxicological approach to setting spacecraft maximum rats due to acute cold stress p 158 A92-27600 derived from human brain images allowable concentrations for carbon monoxide Plasma insulin levels and insulin receptors in liver and [AD-A241263] p.39 N92-13569 p 249 N92-22354 adipose tissue of rats after space flight TORQUE Human exposure limits to hypergolic fuels p 260 A92-39154 p 231 N92-22355 The validation of a human force model to predict dynamic Occupational safety considerations with hydrazine Reduction in myotendinous junction surface area of rats forces resulting from multi-joint motions p 232 N92-22358 subjected to 4-day spaceflight p 375 A92-50070 [NASA-TP-3206] p 316 N92-26538 Photoaffinity labeling of regulatory subunits of protein kinase A in cardiac cell fractions of rats The effects of hydrazines on neuronal excitability Correlation and prediction of dynamic human isolated p 306 N92-27844 [AD-A247103] joint strength from lean body mass p 379 A92-51485 Microdistribution of lead in bone: A new approach [NASA-TP-3207] p 317 N92-26682 Effect of spaceflight on rat hepatocytes - A morphometric [DE92-013036] p 396 N92-31589 TORQUE SENSORS (ROBOTICS) p 380 A92-51490 A study of the effect of hydrocarbon structure on the Smart end effector for dexterous manipulation in Training, muscle fatigue and stress fractures induction of male rat nephropathy and metabolite p 134 A92-21151 [AD-A240386] o 7 N92-11626 structure TORSION Fluctuation in tissue temperature due to environmental p 386 N92-31590 Ocular torsion as a test of the asymmetry hypothesis f space motion sickness p 387 A92-50153 variation. WATER VAPOR SUBJECT INDEX

Thyroid effects of iodine and iodide in potable water	WAVEFORMS	Examination of eye movements under immersion
[SAE PAPER 911401] p 201 A92-31328	Clustering: A powerful aid in classifying QRS	p 272 A92-39209
Disinfection susceptibility of waterborne pseudomonads	waveforms p 5 N92-10541	Human factors issues for interstellar spacecraft
and Legionellae under simulated space vehicle	WEAPON SYSTEMS	p 285 A92-39504
conditions	Task Analysis/Workload (TAWL) - A methodology for	Morphometric ultrastructural evaluation of satellite cells
[SAE PAPER 911402] p 201 A92-31329	predicting operator workload p 10 A92-11177	of the soleus muscle in rats subjected to weightlessness
Biofilm formation and control in a simulated spacecraft	Psychophysiological assessment of pilot and weapon	conditions in the Biosputnik 936 p 295 A92-44421
water system - Two-year results	system operator workload p 13 A92-13018	Orthostatic hypotension of prolonged weightlessness -
[SAE PAPER 911403] p 201 A92-31330	Development of the HGU-67/P helmet for the AH-1W	Clinical models p 390 A92-50169
Development and (evidence for) destruction of biofilm	(Cobra) helicopter p 238 A92-32977	Hormonal control of body fluid metabolism
with Pseudomonas aeruginosa as architect	Proceedings of the 1st International Symposium on	p 390 A92-50171
[SAE PAPER 911404] p 185 A92-31331	Nonlinear Optical Polymers for Soldier Survivability	Adaptations of young adult rat cortical bone to 14 days
Bioburden control for Space Station Freedom's	[AD-A241335] p 50 N92-13585	of spaceflight p 376 A92-51471
Ultrapure Water System [SAE PAPER 911405] p 202 A92-31332	Early training strategy development for individual and	Cardiac morphology after conditions of microgravity during Cosmos 2044 p 379 A92-51484
Regenerable biocide delivery unit	collective training (AD-A242753) p 84 N92-15542	during Cosmos 2044 p 379 A92-51484 Attenuation of human carotid-cardiac vagal baroreflex
[SAE PAPER 911406] p 202 A92-31333	(AD-A242753) p 84 N92-15542 WEAPONS DELIVERY	responses after physical detraining p 423 A92-54728
Functional description of the ion exchange and sorbent	The effect of field-of-view size on performance of a	Acute leg volume changes in weightlessness and its
media used in the ECLSS water processor unibeds	simulated air-to-ground night attack p 182 N92-19018	simulation
[SAE PAPER 911551] p 203 A92-31342	WEAR RESISTANCE	[IAF PAPER 92-0259] p 425 A92-55695
Thermal pretreatment of waste hygiene water	The medical acceptability of soft contact lens wear by	Changes in renal function and fluid and electrolyte
[SAE PAPER 911554] p 203 A92-31344	USAF tactical aircrews p 119 A92-23309	regulation in space flight
Phase III integrated water recovery testing at MSFC -	WEIGHT ANALYSIS	[IAF PAPER 92-0256] p 425 A92-55698
Partially closed hygiene loop and open potable loop results	First Lunar Outpost crew module thermal protection	'SVET' biotechnological system, controlling the
and lessons learned	design sensitivity p 445 N92-33345	environmental conditions for growing higher plants in
[SAE PAPER 911375] p 204 A92-31358	WEIGHTING FUNCTIONS	weightlessness
Microbial biofilm studies of the Environmental Control	The hazard of exposure to 2.075 kHz center frequency	[IAF PAPER 92-0282] p 416 A92-55717
and Life Support System water recovery test for Space	narrow band impulses	Physiologic validation of a short-arm centrifuge for space
Station Freedom	[AD-A242997] p 123 N92-17299	application p 427 A92-56462
[SAE PAPER 911378] p 204 A92-31361	WEIGHTLESSNESS	Results from plant growth experiments aboard orbital
Waste water processing technology for Space Station	Lung and chest wall mechanics in microgravity	stations p 33 N92-13083
Freedom - Comparative test data analysis	p 4 A92-13197	Treadmill for space flight
[SAE PAPER 911416] p 205 A92-31367	The weightless experience p 35 A92-16403	[NASA-CASE-MSC-21752-1] p 148 N92-17910 Resolving sensory conflict: The effect of muscle vibration
SPE water electrolyzers for closed environment life	Surgery in space - Surgical principles in a neutral	
support [SAE PAPER 911453] p 206 A92-31370	buoyancy environment p 74 A92-17772	on postural stability p 190 N92-21276 Evaluation of cutaneous blood flow during lower body
An assessment of the readiness of Vapor Compression	Effects of prolonged hypokinesia and weightlessness	negative pressure to prevent orthostatic intolerance of
Distillation for spacecraft wastewater processing	on the functional state of skeletal muscles in humans - Use of an electromechanical efficiency criterion	bedrest pressure to prevent of thostatic introduction of
[SAE PAPER 911454] p 206 A92-31371	p 75 A92-18210	Space sickness predictors suggest fluid shift
Shower water recovery by UF/RO	Possible actions of gravity on the cellular machinery	involvement and possible countermeasures
Ultrafiltration/Reverse Osmosis	p 93 A92-20829	p 231 N92-22350
[SAE PAPER 911455] p 206 A92-31372	Architectural ideas relating to the question of human	Computer simulation of preflight blood volume reduction
Water vapor recovery from plant growth chambers	body motion in microgravity	as a countermeasure to fluid shifts in space flight
[SAE PAPER 911502] p 209 A92-31389	[SAE PAPER 911498] p 138 A92-21809	p 231 N92-22351
Using biological reactors to remove trace hydrocarbon	Locomotor exercise in weightlessness	Microgravitational effects on chromosome behavior
contaminants from recycled water	[SAE PAPER 911457] p 116 A92-21847	(7-IML-1) p 223 N92-23604
[SAE PAPER 911504] p 209 A92-31390	Exercise thermoregulation - Possible effects of	Eggs: The role of gravity in the establishment of the
Advanced development of immobilized enzyme	spaceflight	dorso-ventral axis in the amphibian embryo (7-IML-1)
reactors	[SAE PAPER 911460] p 117 A92-21850	p 224 N92-23607
[SAE PAPER 911505] p 209 A92-31391	Spacelab neurovestibular hardware	The effect of space environment on the development
The use of membranes in life support systems for	[SAE PAPER 911566] p 118 A92-21880	and aging of Drosophila Melanogaster (7-IML-1)
long-duration space missions	The effect of weightlessness on the progress of muscle	p 224 N92-23608
[SAE PAPER 911537] p 209 A92-31392	repair in rats flown on the Cosmos-2044 biosatellite	Effect of microgravity environment on cell wall regeneration, cell divisions, growth, and differentiation of
Development of a proton-exchange membrane electrochemical reclaimed water post-treatment system	p 155 A92-25261 The effect of weightlessness on healing of bone	plants from protoplasts (7-IML-1) p 224 N92-23609
[SAE PAPER 911538] p 210 A92-31393	fractures in rats flown on the Cosmos-2044 biosatellite	Gravity related behavior of the acellular slime mold
Microbial screening of water supplies for spaceflight	p 155 A92-25262	Physarum polycephalum (7-IML-1) p 225 N92-23618
missions	Designing exercise gear for zero gravity	Studies on penetration of antibiotic in bacterial cells in
[AIAA PAPER 92-1605] p 284 A92-38686	p 198 A92-30125	space conditions (7-IML-1) p 225 N92-23619
Waste water purification method using vapor	Options for transpiration water removal in a crop growth	Space adaptation syndrome experiments (8-IML-1)
compression distiller p 439 A92-53665	system under zero gravity conditions	p 235 N92-23625
Evaluation for waste water purification using	[SAE PAPER 911423] p 208 A92-31381	Whole body cleaning agent containing N-acyltaurate
thermopervaporation method p 439 A92-53666	Skeletal responses to spaceflight p 218 A92-34192	[NASA-CASE-MSC-21589-1] p 370 N92-29137
Advanced experimental model of water distillation	Gravity effects on reproduction, development, and	WEIGHTLESSNESS SIMULATION
system p 439 A92-53667	aging p 218 A92-34193	Effect of 29 days of simulated microgravity on maximal
Solar detoxification of water containing chlorinated	Neurovestibular physiology in fish p 218 A92-34194	oxygen consumption and fat-free mass of rats p 30 A92-15955
solvents and heavy metals via TiO2 photocatalysis [DE91-018396] p 211 N92-20046	Comparison of the frequency spectra of surface	Transcapillary fluid shifts in tissues of the head and neck
[DE91-018396] p 211 N92-20046 Hygiene water recovery aboard the Space Station	electromyographic signals from the soleus muscle under normal and altered sensory environments	during and after simulated microgravity

Typical Personal Author Index Listing

Listings in this index are arranged alphabetically by personal author. The title of the document provides the user with a brief description of the subject matter. The report number helps to indicate the type of document listed (e.g., NASA report, translation, NASA contractor report). The page and accession numbers are located beneath and to the right of the title. Under any one author's name the accession numbers are arranged in sequence.

AALDERS, J. W. G.

Confocal microscopy in microgravity research p 95 A92-20841

Oxygen cost of exercise hyperpnea - Measurement p 267 A92-37786

- Implications for Oxygen cost of exercise hyperpnea p 267 A92-37787

AAS, PAL

The toxic effect of soman on the respiratory system p 191 N92-21359 [NDRE/PUBL-91/1001]

ABBOTT, KATHY H.

Information management for commercial aviation - A p 359 A92-44905 research perspective

ABDON, MYRIAN DEMOURA

Differentiation on genus of aquatic macrophytes through remote sensing in the Tucurui Reservoir, Para State, Brazil [INPE-5315-PRE/1712] p 297 N92-26721

ABE, TAKAYUKI Voltammetric measurement of oxygen in single neurons

using platinized carbon ring electrodes p 385 N92-30531 [AD-A252191]

Characterization of glucose microsensors small enough for intracellular measurements

[AD-A252954] p 419 N92-33301

DNA structures and radiation injury

p 100 A92-20891

Trace gas contamination management in the Columbus MTFF p 288 N92-25862 A gas chromatographic separator for Columbus trace gas contamination monitoring assembly

p 289 N92-25864 Breadboarding of the main charcoal filter: A component of the trace gas contamination control assembly for the p 289 N92-25867

ABRAHAMSON, JAMES A.

Humans and machines in space: The payoff [ISBN-0-87703-343-9] p 444 N92-33099

ABRAMOV, G. K.

Water recovery from condensate of crew respiration products aboard the Space Station p 317 N92-26951

ABRAMOV, L. K.

Air regeneration from microcontaminants aboard the orbital Space Station p 290 N92-25891 Hygiene water recovery aboard the Space Station p 318 N92-26955

ABROSIMOV, S. V.

Redistribution of blood volume in humans after changes of posture, depending on the state of hydration of the p 75 A92-18211 organism

ABU ASALI. I. I.

The effects of preadministration of aspartate and its combination with a vitamin-coenzyme complex on the catabolism of L(C-14)-aspartate in tissues of certain organs of mice in a hermetically sealed space

p 293 A92-42697

ACHILLE, LISA B.

Dual-task performance as a function of presentation mode and individual differences in verbal and spatial

(AD-A246611)

p 309 N92-27535
